

IronFeather Back-Pack Storage or

3 Person Extended Cab/Rest Cab

The new IronFeather back pack system from NSI provides new flexible and expandable options for all Western Star Models. Using the existing back cutaway option these units are fully integrated with the cab. The new NSI IronFeather line offers back pack storage areas from 12" to 36" and both rest cab sleepers and 3 person bench seating with seat belt certification. Units are modified prior to shipping and come factory complete and ready to body up with no installation hassles.
